## PROFESSIONAL SUMMARY

Software Engineer with 5 years of experience building scalable and maintainable web applications and APIs. Proficient in Node.js, React, and SQL/NoSQL databases. Skilled in architecting complex systems, optimizing performance, and ensuring code quality through best practices. Experienced in leading small teams and collaborating in fast-paced, agile environments.

## SKILLS

**Core Technologies:** Node.js, TypeScript, JavaScript, Sass, CSS, HTML, Git

**Frameworks and Libraries:** Express.js, NestJS, React, Redux, React Query, Next.js, Tailwind CSS

**Databases and Caching:** PostgreSQL, MySQL, MongoDB, Redis

**DevOps and Infrastructure:** Docker, Kubernetes, GitHub Actions (CI/CD), AWS (EC2, S3, RDS, Lambda)

**Testing:** Jest, Vitest, React Testing Library, Playwright

**Others:** Test-Driven Development (TDD), Domain-Driven Design, CQRS, Kafka

## WORK EXPERIENCE

### Micro.company

Remote

September 2024 - Present

- Building an AI-powered browser automation tool, enabling users to perform web actions using natural language.
- Developed and launched a Shopify app that allows merchants to create a store locator and add it to their storefront.

### Neudesic

Kochi, Kerala, India

June 2022 - September 2024

- Developed a comprehensive API template, now being used as the base for all API services of a major airline in India.
- Built numerous APIs for the airline's ticket booking platform, now being consumed by millions of users worldwide.
- Engineered a cryptography module for an international fertilizer company, enhancing their data security and privacy.
- Improved code quality by introducing the best practices in unit and E2E testing, achieving near 100% code coverage.

### Bititude

Remote

July 2020 - June 2022

- Implemented a real-time video conferencing system with integrated chat, for conducting live classes in an LMS.
- Created reusable and extensible components for Calendar and Table, which are now being used on multiple projects.
- Led a small team of developers through the lifecycle of a project, ensuring that the project goals were met in time.
- Wrote detailed documentation for custom components, motivating the creation of an in-house component library.

## EDUCATION

### University of Calicut

Bachelor of Computer Application

2017 - 2020

- Co-founded a web development firm and successfully served a number of clients before exiting from the company.
- Participated in organizing various technology events, contributing to their planning and effective team collaboration.
